

Industrial Smart Meter Application Meter-Bus to NB-IoT

SCB111MB-NB-BT

Industrial M-Bus to NB-IoT Converter, Battery

The SCB111-MB-NB is a Meter-Bus to NB-IoT Router. It reads data from Meter-Bus (M-Bus) in Host mode for water meter, gas meter or electricity meter, and send to remote server via MQTT protocol by NB-IoT cellular technology.

The ultra lower power consumption design enables power saving mode, and the power supply self discharge is low by lithium battery. The battery can run up to 3 years in hourly data uploading.

The ThingsMaster OTA safeguards the device from remote control center to detect and fix abnormalities in site.

Features & Benefits

Meter-Bus Protocol

- EN 1434-3 Compliance
- Meter –Bus (M-Bus) Host Mode with 10 M-Bus Entries
- Supports Bus Short Protection, Self Recovery
- 300 ~ 9600bps Communication Baud Rate

NB-IoT Communication

- LTE NB1/NB2 Global Band
- 3GPP Release 14, Class 3 (23dBm)
- MQTT Protocol
- Data Rate : 126kbps (DL)/ 150kbps (UL)

Non-volatile Data Logger

- 16MBytes Non-volatile Flash Memory
- 1 Meter, Hourly Storage for 6 Months
- Export Text File with Voltage, Meter Data
- Data Logger Erase by Windows Utility

Flexible IoT Server Configure

- IP, Port Topic, Client ID
- User Login Registration

Cellular, Cloud, M-Bus Configuration

- System Configure by NB Utility tool
- APN Setting with Login Authentication
- Cloud Server Configuration
- M-Bus Setting, Scan and Data View

Easy Install, Maintenance

- Battery Compartment Design for Battery Change
- Removable Terminal Connector for M-Bus Cable Connection

Harsh Environmental Application

- Polycarbonate Material, UL 94V2
- IP68 Waterproof, Anti-Oil
- Silicon Based O-ring with Stainless Screw

Windows® Configure Tools

- Easy Friendly Use, Auto Recognize Connected Model
- Available Interface, Parameters Auto Display
- Communicate Through Micro-USB Interface
- Firmware upgradeable by USB interface through upgrade tool

Industrial Application

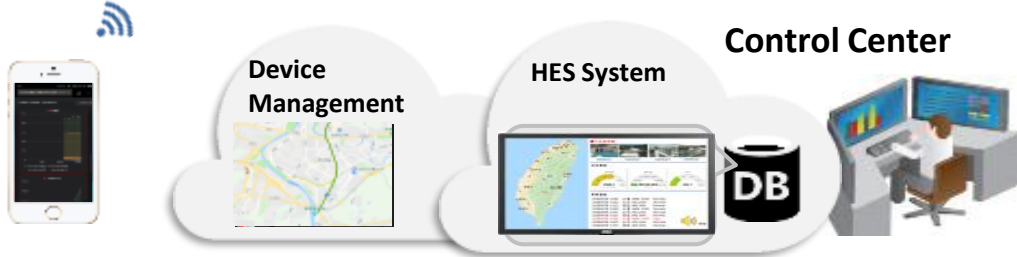

- -20 ~ 70°C / 90%H Environment Operating Temperature
- Compliance EN301489 -1/-52

✓ Ready Total Solution for IoT

Cloud Service

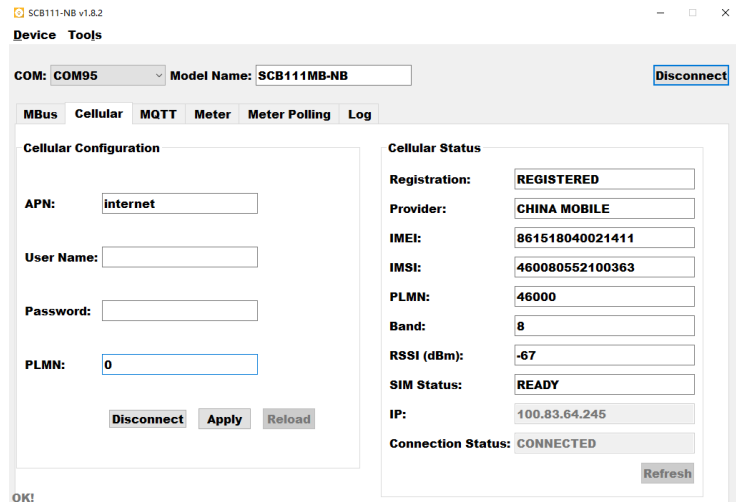

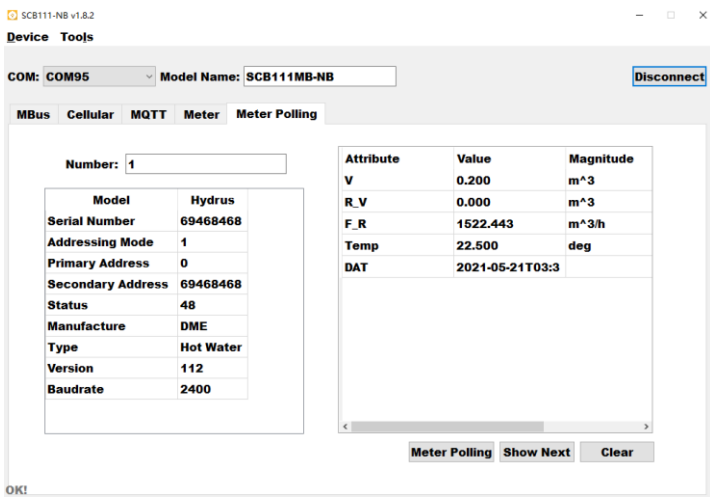

ThingsMaster OTA

USB Configuration Utility

✓ Periodic MBUS Meter Reading to Head End System

Interfaces

Enclosure Out-looking

Dimensions

Cellular Specification	
Standard	LTE 3GPP, Release 14 (SIM7020G)
Data Rate	126kbps (DL)/ 150kbps(UL) (SIM7020G)
Band Information	LTE- FDD: (SIM7020G) B1/B2/B3/B4/B5/B8/B12/B13/B17/B18/B19/B20/B25/B26/B28/B66/B70/B71/B85
Radio RX Sensitivity	-131 dBm (95% throughput with repetitions)
Radio TX Power	Single Tone (Cat.NB2): 23 dBm (+/- 2.7dB) (SIM7020G)
SIM Socket	1x Nano-SIM Socket
Management	
Configuration Interface	1 x Micro USB 2.0 internal port for System Configuration & Firmware Upgrade
Data Storage	16MBytes Non-volatile Flash ROM for Data Storage, Export Text file by NB Utility. Storage Interval Time (minute): 15/ 20/ 30/ 60 Minutes Adjustable Storage Capability: 2 Months for 1 Meter, One Data Polling / Per 15 minutes 6 Months for 1 Meter, One Data Polling / Per 60 minutes
System Event Log	500 Entries for Information, Alert, Error
Software Tool	NB Utility for System and Meter Configuration
M-Bus Interface	
M-Bus Host	Removable Terminal Connector for 2-Wires M+/ M- Cable connection Provides Cable Short Protection with Self-Recovery, Anti Static 12KV protection
Power Requirement	
Battery Specification	Internal Lithium Thionyl Chloride (Li-SOCl ₂) Battery, Non-Chargeable, Replaceable 3.6V/ 14500mAh (ER 34615M) – SCB111MB-NB-BT14
Battery. Life	SCB111-MB-BT14: 3 Years (Per Hourly NB Connectivity with one M-Bus Meter Reading). Auto Voltage detection and push to Cloud for Battery maintenance
Mechanical	
Installation	Screw wall mounting, Nylon Cable Tide
Enclosure Material	UL94V2 Plastic with Anti-UV function, 6 x Stainless Screws
Ingress Protection	IP-68 Waterproof
Dimension	103 (W) x 183.5 (H) x 56 mm (D) (Include Mounting Ear)
Weight	Net Weight: 440g (with Battery) / 330g (without Battery)
Environmental	
Operating Temperature	-20°C~70°C, 0% ~ 90%, Non-Condensing
Storage Temperature	-40°C~80°C, 0% ~ 90%, Non-Condensing
Reliability & Warranty	
MTBF	> 200,000 Hours / without Battery Life
Warranty	3 Years
Regular Standards	
EMC	EN55032 /EN55035 * by request
EMC for Radio Equipment	EN301489-1/ EN301489-52 * by request
Safety	EN62368-1 * by request
Health	EN62311 * by request

Model	Description
SCB111MB-NB-BT14 v5	Industrial Smart Meter Gateway, M-BUS, LTE CAT-NB1/NB2, 1 Nano-SIM, LTE-FDD 1/B2/B3/B4/B5/B8/B12/B13/B17/B18/B19/B20/B25/B26/B28/B66/B70/B71/B85 ,14500mAh (Hardware version 5.0), internal antenna 2dBi
Packing & Accessories	
SCB111MB-NB-BT	1 x Unit
	1 x QIG
