## RUGGED MOBILITY OPTIMIZED

Introducing the new Nautiz X2, the most compact and comfortable rugged handheld available.

The Nautiz X2 is the ideal handheld for today's mobile workforce. With enterprise-level capabilities, it can handle all your tasks – and your rough-and-tumble environments. Plus it offers the portability, feel and sophistication of an Android smartphone. All this, and it's the best value in the market.

### Integrated features for all-in-one capabilities

The Nautiz X2 is a true all-in-one: a computer, a scanner, a camera and a 4G/LTE phone.

First, the basics: Accomplish your daily tasks with the power of a quad-core processor and easy-to-use Android 5.1 Lollipop OS. But then add a high-quality, high-speed 1D/2D scanner with three dedicated scan buttons. The integrated camera offers the clarity and versatility of 8 megapixels, with autofocus and flash. And, to top it off, the Nautiz X2 has the kind of phone functionality you would expect from a consumer smartphone. Google GMS sets the Nautiz X2 apart from other enterprise handhelds, allowing you to download Play Store apps and use Google Maps. The Nautiz X2 is a rugged superstar with efficiency at its core.

### Thoughtful design, superior ergonomics

The real trick is to combine all this functionality – plus rugged durability – into a device that just plain feels good in your hand. No other handheld lets you do your work with the combination of small size, light weight and sleek design of the Nautiz X2. You've got to feel it to believe it.

### And, of course, ruggedness

The Nautiz X2 takes advantage of Handheld's decades of experience building rugged mobile computers tough enough to thrive in harsh outdoors environments... and in your warehouse. It's IP65-rated and meets stringent MIL-STD-810G test standards – built to survive repeated drops and punishing temperatures, and to work equally well in dusty environments or in heavy rain. Rely on it. And rugged mobility also includes an incredibly crisp, sunlight-readable 4.7" display and a capacitive screen with the toughness of Gorilla Glass and the responsiveness of multi-touch sensitivity.

### Hands down, the best value on the market

Probably the most amazing thing about the Nautiz X2 is that it can perform so many tasks, with such ergonomic ease, at such an incredible value. Handheld has been delivering the best combination of performance, reliability and value for years – now the Nautiz X2 takes that tradition to new heights.

<b>Size</b>	150 mm x 73.5 mm x 16 mm (5.9" x 2.89" x 0.62")
<b>Weight</b>	230 g (8.11 oz)
<b>Processor</b>	High-performance quad-core 1.3 GHz processor
<b>Memory/Disk</b>	8 GB ROM / 1 GB RAM
<b>Operating System</b>	Android 5.1
<b>Screen</b>	4.7" IPS panel 1280x720
<b>Keypad</b>	Four keys on front side
<b>Battery</b>	Lithium polymer rechargeable 3300 mAh (12.21 Wh)
<b>Connections</b>	Micro USB 2.0 Dock connector for charging 3.5mm headset connection
<b>I/O slot</b>	SIM (user accessible) MicroSD/MicroSDHC slot (user accessible)
<b>Communication</b>	<i>Audio:</i> Built-in microphone/Headphone connector <i>PAN:</i> BT 4.0 LE <i>Cellular (WWAN):</i> GSM / HSPA+ (3G) / LTE (4G) <i>Wireless LAN:</i> 802.11 a/b/g/n (Dual-band: 2.4G+5G) <i>NFC:</i> NFC 13.56MHz, ISO14443A/14443B/15693
<b>Camera</b>	8 Megapixel camera with autofocus and LED flash
<b>Scanner</b>	1D Laser scanner (Motorola SE965HP) or 1D/2D Imager (Honeywell N3680)
<b>Sensors</b>	GPS/GLONASS Accelerometer Light/Proximity
